Service Level Agreement — Subscription Layer

SGC-SLA-2026-02

Service Level Agreement

Layer 3 · Subscription — Uptime, response, and resolution commitments

Effective Date	01 October 2026	Revision	1 — New (subscription layer)
Classification	Client-facing	Companion to	SGC-MSA-2026-02 (Master Services Agreement)
Support Window	Mon–Fri, 09:00–18:00 GST (default tier)	Uptime Target	99.5% per calendar month

1. Purpose and scope

This Service Level Agreement ("SLA") forms part of the SGC Master Services Agreement (SGC-MSA-2026-02) and governs the service-level commitments for the SGC Subscription Services (Layer 3). It defines uptime targets, support severities, response and resolution times, support procedures, and service credits. Capitalised terms have the meanings given in the MSA.

The default tier described in this SLA is the **Standard tier**, applicable to all Subscription Clients unless the Order Form specifies a higher tier. Higher tiers (Enterprise, Mission-Critical) and add-ons (24/7 P1/P2, dedicated support engineer) are available at additional cost and are documented in a separate Schedule.

2. Uptime

2.1 Commitment

SGC commits to a Platform uptime of **99.5% per calendar month** ("Uptime Commitment"), measured as the percentage of total minutes in a calendar month during which the Platform is available for normal use, excluding Scheduled Maintenance and Excluded Downtime (defined in Section 2.3).

2.2 Measurement

Uptime is measured from SGC's monitoring systems, which test Platform availability from a UAE-region probe every 5 minutes. A downtime incident is recorded when the Platform is unresponsive or returns HTTP 5xx errors for 3 consecutive probes (15 minutes). The Client may request a downtime report at any time.

2.3 Excluded downtime

The following are not counted against the Uptime Commitment:

- **Scheduled Maintenance** — pre-announced maintenance windows, not exceeding 4 hours per month, conducted between 22:00 and 06:00 GST on weekends, with at least 72 hours' advance notice;
- Issues caused by the Client's network, internet, hardware, browser, or third-party software;
- Issues caused by Client-side misconfiguration, unsupported integrations, or unauthorised modifications;
- Force majeure events under MSA §12.4, including screening-source outages outside SGC's control;
- Downtime during account states Grace, Read-only, Archive, or Deletion under PR-03 §08;
- Outages of third-party services that the Platform integrates with (e.g. ASP, government portals), to the extent the outage is outside SGC's control.

3. Support severity levels

Support requests are classified into four severity levels. SGC triages and assigns severity at its reasonable discretion based on the definitions below. The Client may escalate a severity assignment through the support escalation path in Section 5.

Severity	Definition	Response target	Resolution target
P1 — Critical	Platform is unavailable, or a core function (AML screening, intake form submission, record generation) is inoperable for all Authorised Users. No workaround available.	1 hour (24/7 add-on only)	4 hours
P2 — High	A core function is significantly degraded or unavailable to a subset of Authorised Users; workaround is partial or manual.	4 business hours	1 business day
P3 — Medium	A non-core function is degraded or unavailable; workaround available. Configuration, integration, or how-to questions.	Next business day	5 business days
P4 — Low	Cosmetic issues, informational requests, enhancement requests, documentation questions.	3 business days	Best-effort

United Arab Emirates

Service Level Agreement — Subscription Layer

P1 (Critical) response is 1 hour — requires 24/7 add-on. Default Standard tier covers P2/P3/P4 during business hours (Mon–Fri, 09:00–18:00 GST). P1 and out-of-hours P2 require the 24/7 Support Add-on documented in a separate Schedule.

4. Support procedures

4.1 How to raise a support request

- Submit via the in-platform support portal (preferred channel);
- Include: Tenant ID, Authorised User, severity assessment, description, screenshots, and steps to reproduce;
- For P1/P2, also call the support hotline listed in the Order Form (24/7 add-on required for P1);
- Acknowledge SGC's triage confirmation and provide additional information promptly when requested.

4.2 Support window (Standard tier)

Standard tier support is available **Monday to Friday, 09:00 to 18:00 Gulf Standard Time**, excluding UAE public holidays. Requests received outside this window are triaged on the next business day, except P1/P2 cases raised under the 24/7 add-on.

4.3 Resolution effort

Resolution targets are commitments to make commercially reasonable efforts to resolve within the stated time. They are not guarantees. Complex issues, third-party dependencies, or issues requiring source-code investigation may require longer. SGC will keep the Client informed of progress at least every 24 hours for open P1/P2 cases and at least every 5 business days for open P3/P4 cases.

4.4 What is not supported

- Client-side customisations, custom code, or unsupported integrations;
- Issues caused by third-party software, hosting, or network infrastructure not under SGC's control;
- Training on basic platform use (available as a separate professional-services engagement);
- Regulatory filings, registrations, or government-portal operations;
- Restoration of data deleted by Client action in violation of the Acceptable Use Policy;
- Issues arising during Grace, Read-only, Archive, or Deletion account states.

5. Escalation path

If the Client is not satisfied with the handling of a support request, the following escalation path applies:

Service Level Agreement — Subscription Layer

Step	Escalation contact	Target time
1	Support engineer handling the case	Within 4 business hours of dissatisfaction
2	Support team lead	Within 1 business day of escalation to Step 1
3	Support manager / Head of Delivery	Within 2 business days of escalation to Step 2
4	Authorized Signatory	Within 3 business days of escalation to Step 3

6. Service credits

6.1 Uptime shortfall

If the Platform's uptime in a calendar month falls below the Uptime Commitment, the Client is entitled to a service credit calculated as follows, on written request made within 30 calendar days of the end of the affected month:

Actual uptime	Service credit
99.0% – 99.49%	5% of monthly Subscription Fee
95.0% – 98.99%	10% of monthly Subscription Fee
Below 95.0%	25% of monthly Subscription Fee

6.2 Response-time shortfall

If SGC fails to meet the response target for a support request, the Client is entitled to a service credit of **5% of the monthly Subscription Fee per missed response target**, capped at 25% of the monthly Subscription Fee per month.

6.3 Conditions

- Service credits are applied to the next invoice, not paid in cash;
- Maximum aggregate service credits per month: 50% of the monthly Subscription Fee;
- Service credits are forfeited if not claimed within 30 calendar days of the end of the affected month;
- Service credits are the Client's sole and exclusive remedy for any SLA breach.

7. Limitation of liability

SGC's liability for any breach of this SLA is subject to the limitation of liability in MSA §12 and is capped at the Subscription Fees paid by the Client in the trailing 12 months. Service credits

under Section 6 are the Client's sole and exclusive remedy for any uptime or response-time shortfall.

8. General provisions

- **Order of precedence:** This SLA prevails for service-level matters. For all other matters, the MSA prevails.
- **Survival:** Confidentiality, liability, and governing law clauses survive termination.
- **Amendments:** Must be in writing and signed by both parties.
- **Governing law:** DIFC Courts, Dubai, UAE.
- **Counterparts:** May be signed in counterparts.

Acceptance and signature

By signing below, the parties confirm that they have read, understood, and agreed to be bound by this Agreement. This document is non-binding until signed by both parties.
